**SUBJECT:** Operations in the Augusta Airport System During Masters® Golf Tournament 2005

Dear Patron,

Welcome golf fans to Masters 2005, the 69<sup>th</sup> annual Masters® Golf Tournament! For your convenience, Augusta, Georgia is privileged to operate two airports within the city limits, both of which are quite capable of accommodating your travel needs. Daniel Field (DNL) is located at the intersection of Wrightsboro Road and Highland Avenue. Augusta Regional Airport (AGS) is located at the intersection of Doug Barnard Parkway and Tobacco Road. Both airports are committed to making your visit as enjoyable and trouble free as possible.

Due to the heavy aircraft traffic the Augusta airports have seen in the past several years during the Masters® Golf Tournament, we suggest that you utilize the airport that can provide the service you need. The FAA provides instrument arrival and departure service at both airports. The FBOs at both Augusta Regional Airport (Aviation Services) and Daniel Field (Augusta Aviation, Inc.) provide fuel and all customer service amenities you and your guests may require.

**Daniel Field (DNL):**

- Daniel Field has two lighted, asphalt runways with parallel taxiways. Runway 5/23 measures 4,000 x 100 feet with PAPI lights. Runway 11/29 measures 3,732 x 100 feet with VASI lights on Runway 11. The airport has a rotating beacon, lighted wind indicator, and Automated Surface Observing System (ASOS).
- DNL is located three miles from Augusta National.
- The Daniel Field terminal area has bathrooms, telephones, flight planning area, pilot's lounge, conference room and wireless Internet access. Complimentary continental breakfast and home-style lunch will be provided for your crew during the week of April 4-10. Catering is available upon request. - Due to the large amount of traffic associated with the Masters Golf® Tournament, the Airport has designated several overflow parking areas north and east of the Main Ramp. Ground transportation will be provided between overflow parking areas and the FBO. Since active taxiways and runways are between the overflow parking areas and the FBO, please remain within the immediate area of your aircraft until transportation arrives. Pedestrians are prohibited from entering or crossing active taxiways and runways on foot. Contact the FBO on 122.95 for transportation.
- Taxiway E is the primary east/west taxiway parallel to Runway 8/26. Taxiway E will be closed during Masters and will be used for overflow parking. Please check NOTAMs for current taxiway status. When closed and being utilized as a parking area, Taxiway E is a non-movement area.
